YEAR LIMITED
WARRANTY

- Modified asphalt reinforced with an extra heavy fiberglass mat
- Uniformly seals to the deck and around fastener penetrations
- UV protected surface
- Helps to protect building from damage due to ice dams and wind driven rain
- Aggressive bond at low temperatures

Features and Benefits

WEATHER
RESISTANT

Durable Protection – All Season

Heavy duty fiberglass reinforcement provides strength and durability. The proprietary modified asphalt helps to prevent moisture penetration and damage due to wind, rain, ice and snow. Opaque granules on the surface provide great traction during installation and protect against UV. Sealing direct to the roof deck makes GatorSeal® Ice & Water Underlayment a good choice for those critical areas of the roof such as valleys, perimeters, eaves, chimneys, walls, dormers and skylights.

EASY
INSTALLATION

Easy Installation

No heat, special tools or equipment are required to install GatorSeal® in cold or warm climates. The self-adhered layer is covered with a release sheet, easily removed during installation to permanently bond to the roof deck or base sheet.

20
YEAR
LIMITED
WARRANTY

Product Performance

20 year limited warranty under tile, stone coated steel or shingle. GatorSeal® Ice & Water Underlayment meets or exceeds all national and Florida building code requirements and consistently outperforms conventional underlayments.

Build a customized truck load for any combination of the following products:

- Westlake Royal TileSeal™ HT
