- Innovative channel system
- 8 sq. inches ventilation per foot
- Fast and easy roll-on installation
- Blends smoothly with the roof tiles
- Replaces unsightly roof vents
- Dual ventilation for attic and under tiles

Figaroll® Plus

FEATURES AND BENEFITS

SAVE
TIME & MONEY

Save Time and Money

Figaroll® Plus combines roof ventilation with weather blocking necessary on all tile roofs into a single, easily installed product. Each roll provides more attic ventilation than four standard roof vents or two high-efficiency roof vents*.

WEATHER
RESISTANT

Weather Protection

The innovative channel system provides unobstructed ventilation and helps protect against wind driving rain & snow. Aluminum side strips provide high UV protection. Butyl adhesive strips on each side bond Figaroll® Plus to the roof tiles to seal the hips and ridges.

LIGHTWEIGHT

Lightweight

Each roll weighs less than 5 ½ lbs making handling and loading on the roof quick and easy. The light weight also reduces transport cost.

EASY
INSTALLATION

Easy Installation

Extremely stretchable sides are easily formed to blend smoothly to all shapes of roof tiles and fit both hips and ridges. Each 33' roll is compact and easily unrolls onto the hip or ridge. The 11" wide roll expands up to 12.6" to fit all flat and medium profiled tiles. The 13.4" wide roll expands up to 15.0" wide to fit high profiled tiles such as 2 piece or S-shaped tiles. The ventilation channel system unfolds and is ready to ventilate as soon as Figaroll® Plus is installed into place with the butyl adhesive strips onto the tiles.

AESTHETICS

Aesthetics

Increase curb appeal with a tile roof ventilated with Figaroll® Plus. Hidden beneath the hip and ridge tiles, Figaroll® Plus replaces those large, unattractive roof vents or gable vents.

Figaroll® Plus is available only from Westlake Royal Roofing Solutions™, America's largest concrete and clay roof tile manufacturing company.

*Comparison based on standard roof vents with 50 sq. inches net free air ventilation (NFVA) and high-efficiency roof vents with 100 sq. inches NFVA.

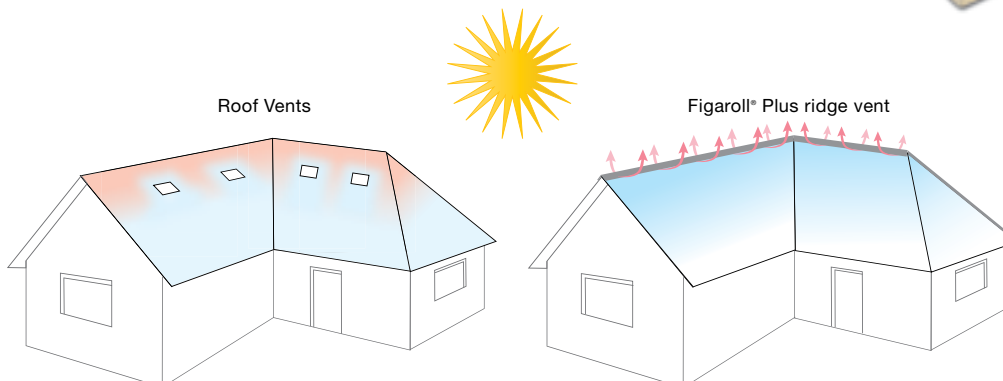

NOTE: This product does not have an express warranty. In addition, SELLER MAKES NO EXPRESS OR IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE regarding this product.

A BREATHABLE ROOF IS ENERGY EFFICIENT

Figaroll® Plus ventilates at the optimal location where heat naturally travels to the highest point. Dual ventilation is possible with Figaroll®: attic ventilation and above-sheathing ventilation (ASV) of the space beneath the tiles and above the roof deck. Improved ventilation of the attic and roof space beneath the tiles lets the roof system breathe to stay cool in summer and dry in winter and prolongs the life of the roof. Install with Ridge Riser® Brackets for improved air flow at the hips and ridges.

SPECIFICATIONS

Roll size	11+” x 33’	13.4+” x 33’
Roll weight	4.9 lbs	5.3 lbs
Rolls per box	4 Rolls	4 Rolls
Rolls per pallet	120 Rolls	100 Rolls
Pallet weight	700 lbs	530 lbs

CERTIFICATIONS / APPROVALS

Meets the design specification as set forth in IAPMO ER-2015

About Westlake Royal Building Products™ | Roofing Solutions

The Roofing Solutions portfolio from Westlake Royal Building Products™ is a recognized, national leader in durable and sustainable clay, composite, concrete, and steel roof systems. Encompassing a suite of materials that provide strength, versatility, and refinement, our portfolio includes US Tile® Clay Roofing Products, Newpoint™ Concrete Roof Tile, Unified Steel™ Stone Coated Roofing, DaVinci® Roofscapes, and Westlake Royal™ Roofing Components, all designed to deliver a higher standard of roof installation, performance, and design.
