SwiftGuard® Roof Underlayment is a high performance synthetic roof underlayment for all steep-slope roofing materials including tile, steel and shingles, as well as natural and composite slates and shakes. SwiftGuard® Roof Underlayment includes innovative, patented nail gasketing technology for superior moisture resistance. A high grip backing and non-woven, thermally embossed facer provide increased deck grab and superior walkability. Each roll is approximately 10 squares (1,000 sqft) making installation *Swift* and easy to *Guard* against the elements.

*See [SwiftGuard Product Warranty](#) on our website for details.

THE ONLY HIGH-PERFORMANCE SYNTHETIC ROOF UNDERLAYMENT RECOMMENDED BY WESTLAKE ROYAL™ ROOFING COMPONENTS.

HIGH-PERFORMANCE FOR ANY ROOF IN ANY CLIMATE.

WEATHER
RESISTANT

Durable Protection – All Season

SwiftGuard® Roof Underlayment is constructed of four layers. Patented gasketing technology in two of these layers help guard against leaks at the underlayment and primary roof covering fastener locations. SwiftGuard® Roof Underlayment helps to withstand the elements in all climates and seasons.

EASY
INSTALLATION

Easy Installation

Each 1,000 square foot roll weighs approximately 50 pounds making it easy to load and install on the roof. Also, they are easier to store and transport to the job site than traditional asphalt underlayment. Clearly identifiable lay lines and fastening markers makes installation swift and easy.
