

PROTECT YOUR HOME AGAINST HAIL DAMAGE

Protecting your family and home with a quality roof is our top priority. Westlake Royal Roofing products, like Unified Steel® stone coated roofing and Class 4 hail rated Newpoint™ concrete roof tiles, are proven to provide superior performance in extreme weather, giving you peace of mind when the weather takes a turn for the worse.

THE HIDDEN DAMAGE FROM HAIL

If your home has been hit by a hailstorm, you might have roofing damage you don't know about.

Here's what to look for:

- Roof particles in your gutters and around downspouts
- Dents on the vents and metal flashing on your roof
- Aesthetic damage such as chips, cracks, bruises or dark blemishes to the roof covering

When damage occurs after a hailstorm, contact your Westlake Representative for help with your next steps. Our experts can help you find a pro that will have your best interest in mind and the right roofing solution that will protect your home for years to come.

CHOOSE A ROOF THAT CAN HELP SAVE YOU TIME AND MONEY

Repair and upgrade to roofing that fits your style, helps you save on energy bills, and offers a Class 4 or better impact rating which increases the durability and longevity of your roof and can help reduce rising insurance premiums. Let your roof work for you!

Here's how:

- A Class 4 Impact rating offers extreme protection against hail damage, helping to reduce the need for repairs and rising insurance premiums.
- Save on energy with Westlake Royal™ Cool Roof Systems, shown to lower energy bills for the life of the roof.
- Comes with limited lifetime and/or fully transferable warranties.
- May contribute to an insurance premium reduction up to 25%.*

HOW TO GET THE BEST ROOFING PRODUCTS WITH YOUR INSURANCE MONEY

Did you know, you can take your insurance money after a storm and use it to invest in a higher quality roof that can help stand up to future storm damage? Now is the time to fix your roof for the long haul and help avoid rising insurance premiums down the road.
